The name of this yarn is a bit tricky, so here are some clues to its pronunciation. All vowels are sounded in Norwegian. The e's in Gammelserie are pronounced like the "e" in met. Gammel rhymes with camel. So, now that you can say Gammelserie, why would you want to knit with it? Because it is THE traditional yarn used for mittens in Norway. In fact, Gammelserie translates to "old style yarn." This yarn is the same as Finullgarn -- worsted spun and vibrant -- but it has more twist. Because of that, the same 50 gram skein is slightly shorter in length than the Finullgarn. 28 sts/4 inches (10 cm) US 1.5 (2.5 mm) 1.75 oz/175 yds; 50 gm/160 m 100% Wool. Made in Norway.
